## NEPTUNE NOT KIND TO HIGH OFFICIAL

Neptune certainly is a respecter of persons, according to the stories which came back from Lahaina on the Kinau last Saturday. The Claudine, carrying the party from this city composed of Governor Frear, Claudius Harley McBride, his private secretary, Land Commissioner Pratt, Superintendent of Public Works Marston Campbell, newspaper men and others, arrived at the Maui port shortly before the Kinau sailed and letters on the latter vessel tell of a strange occurrence.

## INDICT MANY IN FEDERAL COURT

Rosenberg Must Again Appear Before Judge Dole

The final report of the Federal Grand Jury for the special term was made this morning and twenty-eight indictments were returned. There are few of any great amount of interest, the majority of the cases being for violation of the Federal liquor laws and for counterfeiting, with a good sprinkling of charges of violation of the Edmunds Act.

One interesting case is that of Jacob Rosenberg, who has been before the Federal Court on charges of receiving stolen property many times, Hashimoto and Toga, the two Japanese arrested for running an illicit distillery on the Afoong place in Nuanuu valley, were both among the unlucky ones who will have to appear before Judge Dole. The full list of indictments which were brought in this morning are as follows:

Moses Koki, embezzlement money order funds.  
Martin Keogh, smuggling.  
Joshua D. Koki, embezzlement money order funds.  
Jacob Rosenberg, receiving stolen goods.

Ong Too Wan, possession of counterfeit coin.  
Pala, unlawfully carrying on business of wholesale and retail liquor dealer.

John Kakaue, adultery.  
Su Cho Hun, making and having in possession counterfeit coins.  
Kim Koy Won, having in possession counterfeit coin.

Ah Fa, illicit distilling.

Ah Wan, illicit distilling.  
Ah Sai, illicit distilling.  
Nui, unlawfully carrying on business of wholesale and retail liquor dealer.

Daisy Wagner and Albert Toogood, adultery.

Lloyd Smith and Rachel Weigand, adultery.

## Six Territorial Delegates

"I have received definite information that the Republican Conventions in the Territories of Arizona and New Mexico will send six delegates and six alternates to the Chicago convention. My advice is that Hawaii do the same."

This statement was made to a Bulletin man this morning by National Committeeman Robertson, and has to do with the number of delegates the Territories are to send to the National Convention. The National Committee allotted two delegates to each Territory. This is a reduction. The proposal now is for the Territorial convention to elect six delegates and six alternates, send them to Chicago and make a contest before the convention for their seating.

There is no doubt that Hawaii will get a strong support for the Territorial convention to election, and it will have a good fighting force with Arizona and New Mexico working for the same object.

The case against Elder Harmon, of the Mormon Church, who is being tried for subornation of perjury in the Federal Court, was continued this morning. Deputy U. S. District Attorney Rawlins placed Dan Palakea on the stand and then a dispute arose over the meaning of the Hawaiian word "haole." This it appeared from the testimony had been used in the written instruction given Palakea by his superior in the church.

Dr. Emerson and Professor Alexander were both placed on the witness stand as experts in the Hawaiian language to prove that in the use of "haole" Harmon had given instructions to deny certain facts and not to refuse to testify, as the defense claimed the word meant. From the manner in which the case is progressing it will be some days before it is completed.

Papers announcing the resignation of Alfred W. Carter from his position as trustee of the Bishop Estate were filed this morning in the Supreme Court. According to the terms of the will of Bernice P. Bishop the trustees shall always be five in number and shall be appointed by a majority of the members of the Supreme Bench. Following the course outlined Albert F. Judd was appointed to succeed Carter.

The famous Twenty-fourth Regiment band, U. S. Wagner's "Parsifal" selections, including the "Holy Grail," were skillfully rendered. The band, which consists of thirty-five skilled musicians, a large majority of whom are negroes, was under the leadership of Wilfred O. Thompson. Preceding the concert Thompson made a few remarks. He was loudly applauded. Captain Berger was present and enjoyed the music immensely. During the intermission he congratulated Thompson for his splendid leadership.

## PORTUGUESE PAPER CHARGED WITH LIBEL

Another Case Results From Morato Article

Another criminal libel case has resulted from the articles which appeared in the Portuguese newspaper, the A Liberdade, in which Gregorio Jose Morato, who arrived here in the Kumerie, was accused of being an anarchist, and which intimated that he might have left Portugal because of his being implicated with the conspirators who killed King Carlos and the Crown Prince.

Last week Board of Health Inspector Durao, who wrote the offending article, was arrested for criminal libel, and this morning a similar charge was made against the A Liberdade Publishing Co. The complaint was sworn to by Morato, and the warrant served on J. C. Souza, the secretary of the company.

When the case came up in the Police Court this morning E. C. Peters, who represented the defendant, pointed out that the complaint was defective in that it did not state that Souza was the secretary of the company, although service had been made on him. Attorney Correa, who appeared for the complaining witness, stated that this was not necessary, as such service was made legal by provision by statute. The hearing of the case, as well as of argument on the point raised, was continued until next Wednesday, on which date the Durao case has been set for trial. The matter has stirred up great excitement in the Portuguese community, and the outcome of the trial will be watched with great interest.

## Geo. Davis Resigns Office

A rather sudden surprise was sprung in the Federal Court this morning when the resignation of George A. Davis as United States Commissioner was read. While Davis has made many threats of this kind in the past few months there were few who believed that he would carry out the determination.

In the written resignation which was handed in to Judge Dole, and accepted by that official without comment, Davis made a strenuous protest against Frank L. Hatch, the clerk of the Federal Court and also United States Commissioner. He mentions the salary which Hatch receives as clerk of the court and also states that in his opinion the two positions are conflicting and one man should not be allowed to occupy both.

The trouble which has been brought forth publicly for the first time today had its origin when Hatch was first appointed. At that time Davis was vigorous in his statements that the appointment was a direct slap at him. The matter was smoothed over, however, and he did not take any extreme steps at that time. The statement was commonly made at the time of Hatch's appointment that it had been made necessary by the fact that many times when there were warrants to be sworn to, it was impossible to find Davis, and sometimes a delay of several hours was incurred in this way when time was valuable. Since Hatch is always on hand at the

But we wish to be understood correctly that our protest is against the policy of opening lands upon such conditions as are connected with the Mana sale. It is, in our opinion, the giving of land in exchange for the cancellation of the lease, without accomplishing the object held out to the public, viz.: getting small settlers upon the public lands of Hawaii. We say, a farmer in Hawaii should be given the same freedom upon his homestead that the United States gives. Require the cultivation of land together with certain building improvements and give the small farmer a chance is all that the small settler seeks.
